SUMMARY

I am a problem solving designer with over 5 years of design experience in building solutions for several industries from fintech to medtech to web3 with particular interest in bootstrapping startups. I'm a seasoned leader with outstanding communication and problem solving skills. Able to make decisions on behalf of the team and client. I also create content to teach design in my spare time on Youtube😄

SKILLS

Tools	Figma, Adobe XD, Photoshop, Illustrator, AfterEffect, Premier Pro, Webflow, Framer
Design	User Research, UI Design, Design Thinking, Facilitation
Soft Skills	Communication, Leadership, Critical Thinking, Problem Solving, Collaboration

PROJECTS

Dedukt

Dedukt is a platform that connects traditional banks or fintech lenders to employers and simplifies the process of loan repayment, or saving directly from employee's income.

- Redesigned the Web application for Lenders, Employers and Admin users
- Designed the Mobile app for Employees

Since the redesign, Dedukt has onboarded 4 state government employers and 5 federal government agencies with a staff strength of 150,000. Over 30 lenders have also been onboarded and has led to the processing of over **₦2b** monthly in loans since then.

Lønna

Lønna is an AI-driven job hunting platform that boasts of enabling job search with real salary data for the Norwegian job market. Think Indeed.com but with real salary data. It also features a CV and Cover letter builder.

I designed the brand identity and the web app that allows employers to upload vacancies and keep track of applications. Job seekers can also apply for jobs right there on the platform.

Bankvole

Bankvole is a savings and investment product that aims to simplify savings for this group of people. I designed the mobile application after gathering insights from prospective users and stakeholders. The product is currently LIVE on the app stores and has processed hundred of millions of naira in investment since launch

Espees Business

Espees is a cryptocurrency-powered payment service that allows you to send and receive funds instantly, from anywhere in the world, at no cost. By leveraging the decentralized nature of blockchain technology, Espees enables seamless, borderless transactions without relying on traditional banking infrastructure.

Espees Business is a robust solution tailored for high-volume and enterprise-level transactions. It incorporates a multi-signatory authentication process, ensuring that every payment or transfer is approved by designated team members, enhancing security and governance for organizational finances.

I designed the web app that runs this service for multiple user-types, giving them different levels of access. The platform also includes an invoicing generation and merchant management system.

WORK EXPERIENCE

Mar 2022 - Current

Checkoff Finance Limited

Lagos, Nigeria - Design Lead

At Checkoff Finance, I lead impactful initiatives to refine our brand identity and elevate our digital presence. This includes spearheading the redesign of our website for enhanced user engagement and seamless navigation.

Additionally, in my role as Product Lead, I drove the development and successful launch of Bankvole, a forward-thinking savings and investment product while leading product improvement sprints and new feature builds. My contributions align with Checkoff Finance's commitment to innovation and customer-centric design, positioning us for continued success in the global marketplace.

Aug 2024 - Nov 2025

Lybertine

London, United Kingdom - Product Designer (Contract)

Lybertine is a socially innovative event management and ticketing platform whose aim is to ensure ease of organizing and selling out event tickets all over the world while building a community.

My job as a vital part of the design team is to design and elevate the experience of event attendees from onboarding to ticket purchase to ticket management and all sorts. I designed the v3 of the product and ensured it met product requirement up until launch.

Dec 2022 - Feb 2023

PBR Life Sciences

London, United Kingdom - Brand Designer (Contract)

During my tenure at PBR Life Sciences, I led the strategic redesign of our brand identity, pivotal in establishing PBR Life Sciences as a trusted innovator within the healthcare data analysis sector. This cohesive and distinctive brand image not only bolstered our brand recognition but also reaffirmed our unwavering commitment to excellence.

The success of this initiative was underscored by our recognition by successfully being admitted into Techstars in 2023 and havenow expanded into 5 more countries. This experience demonstrates my ability to drive impactful branding strategies that resonate with stakeholders and propel organizational success on a global scale.

Nov 2021 - May 2023

Equal Digital Limited

Lagos, Nigeria - Brand & Product Designer

At Equal Digital Limited, I played a pivotal role in transforming the digital presence and product offerings. This involved orchestrating a comprehensive redesign of the company website, optimizing it for enhanced user experience and engagement.

Additionally, I led the redesign efforts for Dedukt, the flagship product, ensuring it remains at the forefront of innovation and user satisfaction. Furthermore, I consistently crafted captivating creatives and brand materials to reinforce our brand identity and messaging. My contributions at Equal Digital Limited underscore my commitment to driving impactful design solutions that resonate with our audience and propel the company's success.

EDUCATION

Feb 2016 - Dec 2021

University of Ibadan

B.Sc.
